VALUES OF DANIMEX COMMUNICATION

We take responsibility for our work and our actions, and will conduct our business in a socially responsible and ethical manner

Customers

We are committed to being a good partner, focused on delivering the expertise and solutions that support our promise of enabling people to communicate without limits, and strive to build collaborative, trusting relationships with institutions and customers.

Communication & Learning

There are two great equalizers in Danimex: Communication and learning.

Our employees have the knowledge and skills critical to achieving our goals and providing customer solutions.

We are committed to constant learning and communicating new ideas about communication for the benefit of customers.

Diversity

We work around the world and often in underdeveloped countries where people trust us to deliver sound communications solutions.

One of our most important values is respecting the diversity of cultures in which we work and the way in which they enrich our lives professionally and personally.

Accountability

We are accountable — as individuals and as a company — for our work and our actions.

We will be transparent, develop clear, measurable objectives and be responsible for the results we set out to achieve.

Growth

Through constant innovation and by delivering the best customer support in the markets we serve, Danimex will meet its goals for growth and competitive advantage.
