DANIMEX ENTERS NEW MARKETS

25th September 2017

DANIMEX ENTERS NEW MARKETS AND EXPANDS ITS DISTRIBUTION NETWORK

Danimex Communication and Motorola Solutions have formed a new partnership to market Motorola's products and solutions in the Nordic Countries.

Danimex has over 30 years' experience within telecommunications and is one of the longest standing distributors of Motorola Solutions. Danimex's main markets have been Africa and the Middle East but this new distribution contract will ensure our customers in the Nordic countries access to the comprehensive range of Motorola products and Danimex's value added service and support.

Our Nordic customers will benefit from local resources from our head office in Denmark where we have extensive stock that enables fast and reliable deliveries and our product portfolio that fulfills your radio system needs. From DMR to TETRA, through antennas and combiners, our portfolio covers everything you need to build a large or a small Motorola communication system.

Henrik Thomsen, Danimex COO said: "We have enjoyed the benefits of being a distributor for Motorola Solutions for several years and this new agreement strengthens the excellent working relationship already in place"

Aage Terp, Danimex Senior Vice President, Global Account Operations said: "entering the Nordic market is a great opportunity for Danimex and we are excited to bring our unrivalled value-added service and support to the Nordic market."
